

Respiratory Research Volunteer Register

We have a large portfolio of respiratory research studies and trials covering all respiratory diseases, from common lung conditions such as, Asthma, COPD and Interstitial Lung Disease (ILD), which includes IPF to more rare conditions. We often are looking for people without lung disease too and we are studying people recovering from pneumonia and COVID-19.

If you would like to help us with our research, please register to join our volunteer register, you can do so by **completing our** volunteer register form using the QR code or clicking this link: <https://www.nrru.org/volunteer>. The form should only take 2 or 3 minutes to complete.

Your details will be held in the strictest of confidence in an encrypted format and will only be ever be available to our research team. We would contact you about respiratory research studies and activities that may be of interest or of possible benefit to you. There is a link to the Respiratory Volunteer Register Privacy Policy on this website.

Chat with us on 0115 8404844 (leave name, message and your number if answerphone) or email respiratory-research@nottingham.ac.uk if you want to discuss.
